Children have stars in their eyes

CHILDREN at Widewell Primary School in Plymouth spent a day at a mobile planetarium as part of their science week.

The youngsters from Key Stages 1 and 2 enjoyed Space Odyssey, which uses state-of-the-art technology to bring astronomy to life.

Multi-media presentations were given by an experienced science teacher, with other activities during the week including a science fair and a paper plane competition.

School science coordinator Pauline Whyman said: "It was a unique experience for the children to learn about space."

Pictured is Sydney Anstey, aged nine, in the Space Odyssey planetarium.
